6. Conclusion.....	5
7. Bugs List.....	6
8. Bug Report.....	7-30

1. Purpose:

This document explains the various activities performed as part of testing [Domino's Pizza](#) Israel website.

Tests have been conducted on all parts of the website to check if the system is functioning well and ready for use.

2. Application Overview:

The use of the Domino's Pizza website is mainly for viewing the menu, ordering food for delivery, or for self-pickup.

The website's purpose is to make it easy to order food from Domino's without the need for a phone call.

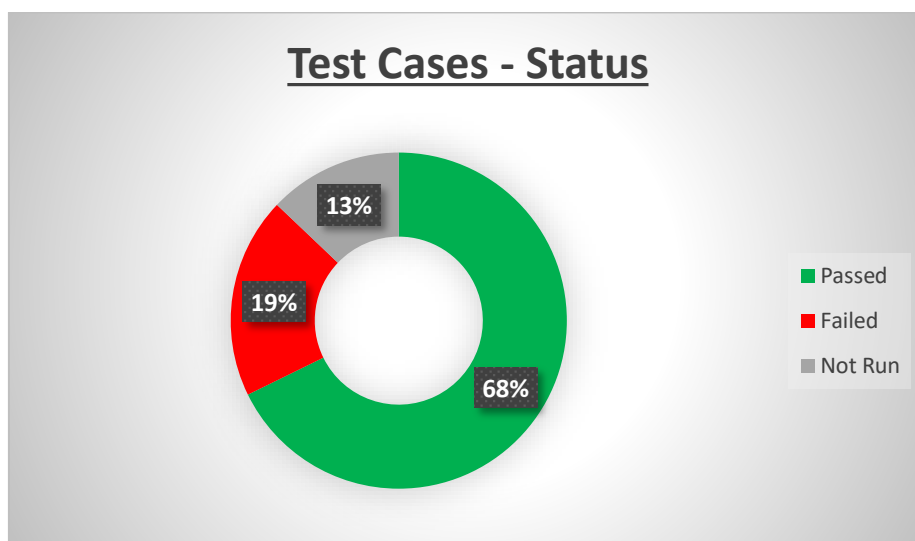

3. The things that got tested:

Website login system, Graphical user interface, usability testing, performance testing, accessibility, internationalization and we checked all the process from logging in until receiving the pizza.

4. Metrics:

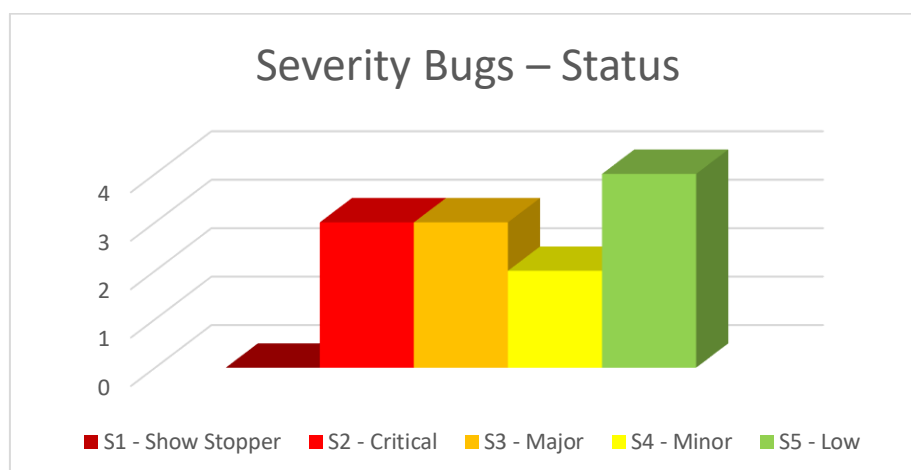

Test Cases - Status

Passed	Failed	Not Run	Total
42	12	8	61

Severity Bugs – Status

S1 - Show Stopper	S2 - Critical	S3 - Major	S4 - Minor	S5 - Low	Total
0	3	3	2	4	12

5. Recommendations:

1. Adding the option to change language so even people that don't know Hebrew will order.
2. Fixing the download link- today, applications are very important.
3. Making all the "changing backgrounds" smaller.
4. Working more on the design of the site.

6. Conclusion:

After the tests we conducted on the website, we found that the majority of the bugs are at a low severity level, and there is no bug with severity of "Show Stopper".

The website is functioning well and doing what it is supposed to do, so I recommend releasing the site.

7. Bugs List:

Dom-3: page sale images are Home cropped.

Dom-4: The symbol does not open a link to the website.

Dom-5: Unclear text display on "הצהרת נגישות" page.

Dom-6: Text is not clear using black text color.

Dom-7: The small pictures are cropped in the bottom.

Dom-8: Use of various fonts

Dom-9: Not seeing every band in "עזרה".

Dom-10: Vegan Zone button does not open Vegan Zone area.

Dom-11: The "להורדת האפליקציה" button returns you to the home page.

Dom-12: In the "דרושים" you can't see the links on some of the backgrounds.

Dom-13: There is no accessibility for people who do not know Hebrew.

Dom-14: The Domino's Pizza home page loading is slow.

8. Bug Report:

[DOM-3] Home page sale images are cropped Created: 06/Jan/24 Updated: 06/Jan/24
